Submission: Objection

Comments: In short, I fully understand the need for high speed internet, better connection, mobile signal etc, especially in this day and age. However, I feel it;s totally inappropriate to install such a structure. I believe in this particular case, there are legitimate planning arguments to justify rejecting this application.

The application fails to mention that the site is in a conservation area and in proximity to three listed buildings. Old Hall Square is a unique and special part of our local community, and any such structure would not be in keeping with the surrounding area. In fact, not only will it be a complete and utter eyesore, I firmly believe that the structure profoundly alters the character and appearance of the surrounding area in such way that it will only serve to adversely impact on the historical, cultural, architectural environment of Old Hall Square.

In addition, I have deep concerns that this application could set a worrying precedent. The installation of such a structure in a conservation area is likely to have far reaching consequences. Not only for this particular conservation area, but for other conservation areas in High Peak, such as ones located in nearby Padfield, Old Glossop and Tintwistle too. The monopole would not sit sympathetically alongside the the historic layout of Old Hall Square and would completely alter its appearance.
