Submission: Support

Comments: The Cricket Pavilion is a relatively modern, single-story structure which, though it lies within the Hayfield Conservation Area, has minimal impact on the surrounding buildings. The addition of a small, single-story side extension, matching the materials and style of the existing building, will not materially change the impact of the structure on the surrounding environment.

The new facilities provided by the extension will, however, have a significant impact on the experience of women and girls playing cricket at the club by providing a dedicated changing and showering space. Hayfield Cricket Club promotes inclusivity and has a highly successful programme of women's and girl's cricket but what it doesn't have currently are the facilities to support continued progression for women in the sport.
