Submission: Support

Comments: We live in the adjoining house to No 3 Shallcross Road and because both houses have cellars at the rear of the property, step access is needed to the back garden. When the houses were built, this access was provided by brick steps and a platform into the property. We are in full support of this application as the new balcony is a vast improvement on the old structure. This had been in place for 20 years and was showing signs of deterioration, resulting in the structure of the balcony to be unsafe. The addition of the frosted glass has added to the privacy for all concerned. The work that was carried out, was done with the minimum of disruption to all residents.
