Glossop

There are numerous objections already made by many local house owners and services in the locality & as a runner/walker using this space, once again putting more homes on a green field sites not only detracts from the area but adds so much upheaval to the infrastructure. It is a seriously busy road, during rush hour and at weekends with many children & young people in the vicinity, as more cars and vehicles use and commute/visit around the centre the greater the risk of accidents.

The long term plan to develop more and more green spaces for housing in the High peak, especially in rural towns with a restricted infrastructure, such as Glossop even with a built spur road around Mottram, will overwhelm the centre and be a less attractive area to live in for all residents. Particularly, when many of these recent developments have little or no social housing for the next generation.
