Comments: How is it possible that Glossop Eden Ltd can once again put in an application for housing when an appeal by the company was rejected only last month?? It makes a complete mockery of the whole system. This company are going to keep putting forward applications until they get something approved. It is wrong!! The people of Glossop have spoken more than once about each application this company has made to state that we do not want or need another housing development like this in Glossop.

Since January 2023 I fail to see any improvements made to the junctions on Slatelands and Hollincross Lane. The roads remain narrow and congested with parked cars and traffic. It is a hazard and further houses will increase traffic around an already highly congested area.

Since January 2023 I fail to see any improvements with regards the infrastructure within Glossop. We have not had a sudden burst of GP surgeries, dentists or schools being built. How on earth can a development of 25 dwellings be approved when we cannot facilitate the people we already have living here, not to mention the builds that are currently taking place.

Since January 2023 Redcourt remains a green space which is home to abundant wildlife. This still needs protecting especially in times when climate change should be at the forefront of our agenda.

There has been no changes made to Glossop since the last application from Eden Ltd. Surely this should count for something!
