Comments: I support this planning application as it will benefit both Old Glossop Cricket Club and the local community. I think this project should be approved as the club currently doesn't have enough training facilities for the large number of participants that we now have and the current net facility is old and not fit for purpose, meaning that some of the clubs teams have to find other space to be able to train due to the club currently having a lack of training facilities. The club now has numerous teams ranging from multiple junior teams to men's and women's senior teams so this is the perfect opportunity for a new facility for all to use. The new nets would provide us with somewhere for all age groups to train. It has benefits on the local community as there would be more opportunity for others to get involved with more space available and newer facilities which has the benefits of more people being active and getting regular exercise by using the new facilities at the club.
