Submission: Support

Comments: I fully support this application. The development at Old Glossop Cricket Club is needed to support the current and future community around the club. New training facilities are needed for the increased number of players, with an expansion of mens teams, the introduction of one, perhaps two new ladies teams, and a full complement of junior sides. The new training facilities would allow the club to expand the allstars and dynamos programme for children in the local community. It would also allow the club to open up the facilities to the wider community (schools/youth groups). The benefits will include a promotion of physical exercise, teamwork and collaborative working, positive mental health, socialisation, and community cohesion. The ground specified for the facilities is not intrusive, and positioned in a way to minimise visual disruption to the houses surrounding the ground. The facilities will only be used during specified time frames, for a maximum of 8 months of the year. I believe the facilities will improve the site considerably. They will open the club up to the wider community and provide many positive impacts to all.
