Subject: APPLICATION NUMBER HPK/2023/0025

Categories:

Dear Sirs,

I wish to comment concerning the above ~Planning Number relating to Redcoat Development - New Application

Although the builder has reduced the amount of houses to be built I object to the above on the following grounds

24 houses will probably mean 48 more cars to add to the already highly congested valley -

Pikes Lane is so congested that the pavements are invariably unable for pedestrians to pass - even just with a shopping trolley and on many, many occasions I have to walk in the road.

Probably more trees being cut down, when in fact with all the traffic in Glossop, we really need all the mature trees to enhance our environment, for beauty, for wildlife and for fumes.

Glossop's traffic is a constant stream (or often at a stand still), along the main road, but due to developments at the bottom of Buxton Road, even Primrose Lane is much more busy with cars as well as the stone trucks.

Senior Schools are not able to accommodate more and more new pupils, doctors and dentists are at capacity,

I am opposed to more house building in Glossop and its surrounding area.

Thank you for giving Glossop residents the opportunity to voice our objections and our views.

Yours sincerely,

Valerie Allen
