Submission: Objection

Comments: I wish to submit my objections to the above named application for the following reasons:-

I have lived with Redcourt grounds as a backdrop to my home for over 50 years and it has provided such a wonderful environment in which to live, the trees and the wildlife are a great pleasure to myself and to many others through the seasons. I therefore cannot see any conceivable reason why I would agree to this 'paradise' being destroyed and replaced by a building site and then subsequently the presence of many properties with the noise and lack of privacy that these would represent.

Also I believe that the site is a Conservation area, and the land is part of a Trust, how was this allowed to be sold? There are owls, bats and woodpeckers along with many bird species that live in the grounds, surely in this age of the 'Green agenda' these species should be protected at all costs, along with the little bit of green space that the town has left. Maybe the Council should buy the land from the developers and create a St James park for the community to compensate for the relentless development that is going out throughout the town. Glossop's infrastructure is not able to cope with the increase in population, this development should not be allowed to proceed.
