Categories:

Good afternoon,

I refer to the planning application HBK/2023/0064.

It is noted that bin storage has been included within the design and the amount of space allocated currently meets the requirements that each flat would need to adequately store their waste between collections as per the current Council policy.

It must be noted that the Environment Act has recently been passed and this outlines some significant changes to the way waste collection may change in the future. It is expected that all households will be required to present food waste in caddies for a weekly collection.....it is not yet known if a communal bin for developments such as these will be allowed. In addition it is likely that a separate collection for Fibre will also be required (cardboard and paper).

It must also be noted that the Management agent for this site will be responsible for the purchase and supply of the communal bins and will retain the responsibility for the condition on the bins stores.

Kind regards
Martin
