

Since May, 2021, we have been a licensed riding school, Licence number HPKRE 2014 refers, and Carol has over the years become well known within the community for her equine tutoring. She is inundated with requests from the wider community which reflects not only her popularity, but the demand for private tutoring that these extra lessons will fulfil. I therefore propose an increase of lessons to a maximum of 56. This equates to an average of two lessons per day, though other factors such as weather, fitness of the ponies or horses and rest days will likely render these numbers to be far less. We have decided to change the emphasis of the business towards the riding school rather than livery clients who each visit the site twice daily. Reducing their numbers by just one would more than compensate for the traffic generated by the proposed hourly or half-hourly lessons commencing no earlier than 8am and ceasing no later than 9pm. It is also common for some riding school clients to cycle and even walk to the site.
