Submission: Objection

Comments: We are concerned that the double storey extension will loose our right to light to our home. The sun moves around to the front of the property and the extension will cast a shadow onto the side of our house thus impacting the amount of natural light entering the window on the side. This will have a more noticeable difference as the area affected is already impacted to lack of light due to the existing building but especially over the autumn and winter months as the sun is lower.

If proven the natural light will not be affected we have no further objections to the application
