Submission: Support

Comments: I strongly support this application. As a parent to 3 children in their 20s who are struggling to get on the property ladder with the quite frankly ridiculous prices that first time homes now command, there is a desperate need for affordable homes in this area. I feel for this generation now looking to purchase their first property, my first house cost £28k! My generation has benefitted from increasing house prices but the young people now looking to get on in life face massive challenges with increasing house prices and ever increasing rental payments, all my children work locally and would like to remain living in the High Peak, this type of development would be ideal, I therefore wholeheartedly support this application.
