Submission: Objection

Comments: We would like to object to this planning development which is on the fringe of the national park. Existing development at this site is not in keeping with the nature of the countryside and existing properties. The development will encourage on road parking and due to the narrow single lane layout at this location be hazardous to other users including drivers, cyclists and walkers. Uncontrolled parking may also prevent emergency vehicle access to our properties and impede events such as funerals and weddings at Taxal Church.
