Submission: Objection

Comments: I do not consider the development business to be of satisfaction in regards to building quality, more following planning application guild lines due to the number of breeches which have take place on Charlestown view site given the level of environmental damage caused, breech of health and safety, disregard towards planning building regulations I do not give them any consent to continue any site as to be more clear on the matter Opulwood haven't completed Charlestown view site leaving the site access road in a unsafe manner, encompassed with a unsafe public footpath with soil degradation to environmental natural animal habitat. I would look to remove all and future planning applications
