Comments: The heavily congested town of glossop will not be able to cope with the extra traffic that this fast food establishment will create. The very nature of fast food will create a fast turn over of vehicles. This will cause a safety issue for motorists, cyclists and pedestrians.

A Mac Donald's restaurant placed here could divert traffic bound for Sheffield using the A628 and instead making a detour to either use the A57 to Sheffield, or turn up a narrow residential street (Arundel Street & up onto Fauvel road). Both routes will increase congestion and cause grid lock at peak times. I cannot believe this has been considered at this location. When the spur road is completed, ADDITIONAL grid lock will occur in the centre of Glossop instead of Mottram Moor, as traffic will not directly pass the Mac Donald's at Hattersley roundabout.
