Submission: Objection

Comments: Buxton doesn't have the infrastructure to support both asylum seekers and local residents. We already have a sparse police presence, overwhelmed health services and limited nursery and school places available. The close proximity of the proposed site to vulnerable residents will have a negative impact on their wellbeing. There is currently no provision for asylum seekers with communication barriers to get the help that they need to submit their application and integrate with society. Surely a city centre would be best placed to provide this.
