Categories:

Hi Jane,

Further to our response dated 27th February 2023, an updated enhancement plan (V3) has been submitted. Further amendments are required:

- The sparrow terraces have been swapped for universal nest bricks as requested but these are specified on southern aspects of dwellings. This can cause birds to overheat or the boxes not to be used. The locations should be amended to avoid southern elevations.
- The quantity of bat boxes has not been amended in the legend, as requested previously.
- We welcome the addition of hedgehog gaps.

Best regards,
Libby.

Please note, I do not work Fridays.

Libby Duggan-Jones
