Submission: Objection

Comments: The proposal would involve removal of the southern wall bounding the front of The Coppice. This wall is the original boundary wall of the original Methodist Tabernacle (now The Coppice), built in 1860, and is matched by a similar wall on the northern side which extends to the same point in front of the building. These not only form part of the curtilage of a grade II listed building, but are an important aesthetic detail in the character of said listed building. I therefore object to the planning application as it currently stands.
