Submission: Objection

Comments: I wish to object to the planning application for battery storage on Marsh Lane New Mills.

Green belt should be protected for everyone to enjoy and all brownfield sites thoroughly investigated for suitability. The battery storage plan is not in keeping with local amenity, already congested minor roads are ill equipped to support the onslaught of heavy goods vehicles and increased traffic posing a significant risk to residents, pedestrians and other road users. The detrimental impact on local wildlife and plants, the risk of contamination or fire is a concern to all in the area.

We are very fortunate to live in an 'Area of Outstanding Natural Beauty'. We have many tourists and visitors who come to enjoy the breathtaking scenery, views that should be enjoyed without the scarring on landscape from the scourge of battery storage.
