Submission: Objection

Comments: With reference to the planning application , I am opposed to it on the basis of the following conditions.

1. Current services available to residents of Buxton , there is already a strain on local health services, schools and employment in the town. Adding to it with an influx of "asylum seekers" will place additional undue strain on the community

2. Financial consideration - University of Derby withdrew from the town over 4 years ago and could have offered this accommodation back then to those in need in this community , it has only chosen to do what is contained in the proposal because of revenue option from central government. How much revenue will be given to Buxton to improve services ?

3. Location - Buxton relies heavily on tourism to support it, how will having this centre located in the town affect the economy from tourism - this is not an appropriate community location for such a centre.
