Comments: I agree with the proposed planning request; for a number of reasons I believe this plan should go ahead, most importantly because the farm in question needs these power boxes in order to survive financially. The land owners and farm itself provides an amazing contribution to the local people- not only do they supply local shops/community with delicious milk/cream but they also maintain the land and keep our country side thriving with wildlife! Please strongly consider passing this plan and allowing the proposed ideas to succeed in order to save the farm so they local community can continue to benefit. Thank you
