Submission: Objection

Comments: Unfortunately we feel we need to object to this application. Our house directly borders the field and the camping so far has had a negative effect on where we live. We bought a house off the main road specifically because we had future plans for children. We now have 2 young children and there has been an increased amount of traffic since the camping right outside of our house. It used to be the odd tractor and neighbours parking before the camping was introduced. It's bad enough with multiple cars on a weekend and this potentially would be all week.

We have also lost our privacy in the summer months as we are completely overlooked by the campers. We bought a house that was off the beaten track and we now have a serious increase in people driving and walking past the front of our house and campers are able to see straight into our back garden.

Noise has increased during the summer months in the evening and does go on past 11pm. This includes opening shutting and climbing the farm gate. Also if there is a little room on our drive they will climb the wall attached to our drive.

The camping has only had a negative effect on where we live, for the 3 months in the summer it is uncomfortable to sit in our back garden.

We didn't and wouldn't have bought a house next to a campsite for the above reasons.

We don't want to be awkward or cause animosity but we have reluctantly accepted the camping during the summer on the weekends and we at least have to say something about it becoming a permanent campsite. We want to stress that we have not complained or been a nuisance when requests have been made to move cars out of the way.
