13th June

Dear Sir,

I am asking you and the group who support you to try to find an alternative site to the one that is planned for an

Energy Storage system at Marsh Lane, Gowhole.

It is a beautiful green field at peace and part of the Green Belt, set aside deliberately to be so, and enjoyed by all passing motorists, riders and walkers.

Could I suggest a quieter, less obtrusive site, such as at Mousehole bottom, where only those on the top of double-deckers might not even notice it. Yours sincerely
