Submission: Objection

Comments: I strongly object to this inappropriate Green Belt planning application for a Major Industrial Project on the grounds of there being no justified reason that would benefit the local economy or job creation. The extreme risk to local resident, the landscape and wild life from thermal runaway, pollution and fire. Also the dangers and proximity to the adjacent railway line and river.

The local infrastructure is totally inadequate to support such a large project and the ongoing maintenance. This development will have no financial or renewable energy benefits to the local area. Only people living nineteen miles away.

I strongly Object to this Application.
