Submission: Objection

Comments: This development would be detrimental to the local area for so many reasons. I fail to see why valued green belt space should be destroyed to benefit people that live 17 miles away in Altrincham. Battery storage brings no environmental benefit so the development does not meet the requirements to build on green belt land. Road access in the area is already inadequate and dangerous in some instances, the development will only make this worse. House values will drop in the vicinity of the battery storage, not to mention the damage to the local environment and wildlife. I don't see how this application can possibly be accepted.
