Comments: I object to this planning proposal on the grounds that there are massive implications on the town and local surrounding areas.

The proposals appear to have been rushed through without due consideration or consultation to the potential impacts on the locals as this has a wider reaching impact than just a planning matter.

Buxton is a tourist town in a rural area and this will have a detrimental impact on the tourist trade due to the number of illegal economic migrants that are being proposed to be housed here. Would you choose to holiday in such a location? NO!

These illegal migrants should be housed in a major city where they have the infrastructure and facilities within existing migrant communities to support them, Buxton has neither.

I have grave concerns regarding the safety of locals should these halls be populated with such illegal immigrants, predominantly single men, one only has to look at the new in France today to see the risks.

There is a genuine housing need amongst the local population and as such a far better use would be to support local people in need with such accommodation.
