Submission: Objection

Comments: I very strongly object to this application for the following reasons:

(IVE HAD TO REPEAT MY COMMENTS AS YOU DIDNT INCLUDE THEM ON MY OBJECTION)

1 It would "industrialise "this area contrary to the policies in the High Peak Local Plan.

With reference to the NPPF Section 13, Paragraph 147 "Inappropriate development is, by definition, harmful to the Green Belt and should not be approved except in very special circumstances".

I don't believe the applicant has demonstrated any "special circumstance" in regard to their application.

2. There is no justification for such a development in this particular location, the batteries don't need to be close to a power/sub station.

3. The batteries would not provide renewable energy as they are not connected to solar, wind or any other energy producing installation.

4. This proposal wouldn't benefit local residents in any way whatsoever, it would not provide lower energy costs, an improved energy supply or any long term employment, its understood that this installation would be supply the Altrincham area.
