Dear Colleague,

Re: John Cole, 115 Marsh Lane, New Mills, High Peak, SK22 4PP

I am contacting you from the office of Robert Largan MP.

Robert has been contacted by his above-named constituent. He has given his comments on planning application HPK/2023/0193 and has asked for these to be considered. Please see below a copy of the constituent's correspondence for further information.

Kind regards,

Jack Rydeheard
Communications Officer and Caseworker
Office of Robert Largan MP
Member of Parliament for High Peak

Subject: FW: Comment submitted for Planning application

Good afternoon Robert

I Hope you are applying your weight behind the quashing of this crazy planning application

We are supposed to be protecting the UK's remaining meager 12% of green belt land.

The heavy traffic that insist on using Marsh Lane as a rat run is already dangerous so we don't want any further increase in volume of traffic

Why are we having to give up our green belt countryside for what is of no benefit to our community

In fact putting us in possible harms way for Altrincham!!!!

The project should be built on a brown field site close to the community that benefits from it

Please do what you can to prevent this application from being granted

As an MP That supports green belt protection I Hope you will help

Kind regards

John.N.Cole

Thank you for submitting your comments on the planning application.

This is an acknowledgement to confirm they have been received by the planning department and will be processed within the next 5 working days.

Please find a copy of your submitted comments below.

Application Reference No. : HPK/2023/0193

Site Address: LAND AT Marsh Lane New Mills Derbyshire

Comments by: Mr John Cole

From:

Marsh Lane

New Mills

New Mills

Email:

Submission: Objection

Comments: This is being built on green belt land and has no benefit to the local community whatsoever. Surely there is a Brown field site more suitable and closer to Altrincham available.

The traffic problems on Marsh Lane are already significant without the chaos this development would cause.

The dangerous and hazardous nature of battery energy storage systems could be devastating to the local community and environment.
