Dear Colleague,
Re: Beth Burgess, 53 Marsh Lane, New Mills, Derbyshire, SK22 4PN

I am contacting you from the office of Robert Largan MP.

Robert has been contacted by his above-named constituent. She has given her comments on planning application HPK/2023/0193 and has asked for these to be considered. Please see below a copy of the constituent's correspondence for further information.

Kind regards,

Jack Rydeheard
Communications Officer and Caseworker
Office of Robert Largan MP
Member of Parliament for High Peak

Subject: Battery Storage Marsh Lane
Robert,

You are already aware of the problems experienced by residents on Marsh Lane, with the volume & speed of the traffic, which never improves, or dealt with & now this eye sore of a proposal on Green Belt land, bringing extra traffic & heavy traffic at that, on to what is & should be used as a country lane.

To think 40 container sized units!! on that land is sacrilege, not to mention the continual working & at weekend too. Don't you feel Marsh Lane has enough to cope with, you cannot cross the road without taking your life in your hands from vehicles speeding around the bends & a continual stream.

Philip Braisby still hasn't done anything along here or from what I understand- anywhere in New Mills, wrong end of the County I guess. The sign, the only indication to on coming traffic that busy entrances (Trading Estate & Beard Hall Farm Lane) exist is covered with foliage from HPBC land and although they have been approached by local Councillors, have still not cut these trees & bushes down.

Now we are to have more danger over here, with the risks that these batteries are supposed to bring as well as a greater volume of traffic along the lane.

I also understand the end product is destined for Altrincham, may I suggest & I am not alone, that is where it should be housed. See how Mr Burnham likes the idea, yes, install in Greater Manchester.

Regards

Beth
