Subject: Hogshaw planning application

Hello

I would like to voice my objection to the Hogshaw planning application HPK/2023/0192. This would be another precious green space lost to building development. We already have green spaces lost in Harpur Hill due to house building and the unnecessary move of Aldi from the centre of town. Houses are also being built off Waterswallows Road in a field. We are gradually reducing the habitat for our precious and vital wildlife, flora and fauna when we should be doing the opposite. In addition, I question if Buxton has the infrastructure to deal with additional housing and the vehicles and people this brings. Fairfield Road is at times a nightmare and other public services are stretched.

If building is to go ahead then take some bold decisions e.g. all houses should be zero carbon. All house fitted with electric car chargers and only electric cars on the new estate, limits on the number of houses built, encourage walking by having no parking on pavements by law, cycle lanes installed, use of recycled materials, improved public transport.

I know that you won't do any of this but the ticking time bomb of climate change makes to consideration of Barratt Homes bottom line.

Regards

Stuart Allerton
