Submission: Objection
Comments: I object to this application on the following grounds:

- 1 - there is no need for this to go ahead on designated greenbelt land - the use of this location has not been adequately justified
- 2 - there is a safety risk to local residents and buildings from the consequences of the thermal runaway - for example the BESS fire in Liverpool in September 2020
- 3 - the application will require significant traffic and heavy use of local infrastructure which is not suitable for this. Marsh lane is a narrow road with a number of tight bridges and with busy (often dangerous) junctions at both ends.
- 4 - evidence that this proposal actually supports renewable energy has not been provided
