Subject: Planning Application Number: HPK/2023/0192
Date: 15 June 2023 13:17:19

Good Afternoon,

Following review of the planning application submitted for Hogshaw, Buxton I am writing to document my objection to this major housing development.

The proposal for 116 houses on the Hogshaw site is ludicrous. As a local resident, I am very concerned about the scale of building in the Buxton area and the pressure it is already putting on our infrastructure and public services. For example, class sizes continue to increase in local schools and doctors waiting times at present are weeks.

Alongside this, the continued development of open countryside has a detrimental effect to the area in which we live for both health and animal welfare.

The vast money that has been spent recently on the roundabout at the top of Fairfield hasn't alleviated any of the traffic problems we have coming in and out of Buxton and building more houses which would be accessed from this would only put even more strain on a system that can't cope now.

Please take this email as a serious objection to the planning application and I would like email confirmation of receipt please.

Kind Regards,

Mrs Kimberley Ponsonby
