FAO Pet Twigg,

I refer to the above application recently received by this authority for highway comments.

The submitted plans provide no internal dimensions of the garages which makes it difficult to assess if the garages are suitable to accommodate vehicles. However, there does appear to be sufficient space within the application site to accommodate the parking requirements of the dwelling without utilising the garages. On that basis, there are no highway objections to the application.

Yours sincerely,

Adrian Martin MCIHT | Project Engineer | Highways Development Control | Place |
