Submission: Support

Comments: At a time when the whole country is struggling, let alone our village, denying this retrospective planning would be a slap in the face to, not just The George, but everyone trying to keep the village a vibrant and interesting place to live. These are minor, non structural, changes to the building and you can argue that they are not in keeping with the building but I'd much rather have those wooden structures than another empty pub in the village... THAT is what is not in keeping!
