Sirs

I wish to lodge my objection to this application which is proposed on a site within the green belt and does not, as far as I am aware, fall into any category of acceptable development set out in policy EQ3 of the High Peak Local Plan.

Road access is woefully inadequate for construction traffic, general access and for emergency services in case of emergencies

It is my understanding that this development does not serve the needs of Furness Vale, New Mills or any other town or village in the local area.

There must surely be a brownfield site, near to the intended beneficiaries, which would be more appropriate and would not have such a devastating impact on the local environment and its wildlife.

It would be far better if this field were allowed to rewild and Novus looked elsewhere.

Regards

Phil Lomas
