Hi,

I refer to the Planning Application HPK/2023/0118.

I can confirm that AES have no objections to this application. All properties have been allocated plenty of storage space to accommodate the correct number of waste collection receptacles.

The only comment that I wish to make is that collections are from the curtilage of the property with the nearest public highway. Therefore the vehicle will not enter any block paved areas that do not form the adopted areas and residents will be required to present their bins where the block paving meets the adopted highway section.

Kind regards
Martin
