Submission: Objection

Comments: I am from Furness Vale and visit my family / off Station rd often . Firstly - I drive all around the country and Marsh lane / Station rd are so dangerous to drive on now and simply cannot accommodate more traffic - in particular lorries . I have read the so far full application and find it ludicrous that highways think this proposal is ok ? This is a Green belt area and there is no excuse to situate a lithium battery farm in Marsh lane . I am alarmed that in their submissions Novus claim that there are no dangerous or hazardous chemicals etc involved . This is untrue / scooters etc with these batteries are banned in many places like trains as they are so dangerous the fire service cannot deal with them . Are the local fire teams able to deal with the dangers ? If appropriate s batteries farm should only be on a brown field site - I believe Novus rejects such sites fir finance reasons!!! I do not see anything in Novus submissions that prove this is a sustainable energy proposal. Also many bits of the PP submissions on HPC site like Heritsge and Visabilty cannot be downloaded? Why - when public viewing /consultation end in 9 days ? I strongly object!
