Subject: Energy Storage System Gow Hole

Ref Application No. HPK/2023/0193 Energy Storage System at Gow Hole, Furness Vale

Dear Mr Stannard,

I wish to object to this planning application on the following grounds.

Firstly, this is inappropriate green belt development and I don't think "Very Special Circumstances" can be demonstrated

Secondly, there is absolutely no benefit to the people of Furness Vale, New Mills or the High Peak. As far as I am aware this proposal is to benefit Altrincham so the people of Altrincham should find a local industrial estate and place it there.

Thirdly, there is a great fire risk with these battery plants and the local (and national) fire crews do not have the knowledge and equipment to deal with the uncontrolled fires generated within these types of facilities.

Fourthly. What an eyesore it would be in our lovely green countryside - furthermore it is not appropriate and is definitely outside the Policy EQ3 of the High Peak Local Plan.

- There is no justification for these proposals at this location.

I trust my comments will be taken into account as a part of the planning application process

Yours sincerely

Jane Smith
