Submission: Support

Comments: I fully support this application. It is a great step forward for our community with the battery boxes set to power around 10,000 homes.

We have been provided with fresh milk and produce from the landowners for many years, and I also now use them for my own family. The battery boxes give the landowners much needed funds to keep their well loved and maintained farm up and running and to keep supplying the local community with their amazing produce.
