Submission: Objection

Comments: The Very Special circumstances for this diabolical development have not been demonstrated. The proposals do not fall within any of the categories of acceptable development in the rural areas as set out in Policy EQ3 of the High Peak Local Plan and the overall effect on landscape character at the site and on nearby land is adverse and contrary to policy EQ2.

There IS an inherent risk of the consequences of thermal runaway to local residents and the environment which is in conflict with the principles of sustainable development (BESS fire Liverpool 2020)

Novus classes this as an energy renewable project yet the system is NOT coupled to solar or wind farm projects and Novus has not provided any evidence that the proposals would specifically harness renewable energy.

Road Access is inadequate, the benefits of this installation are apparently for the Altrincham Cheshire area, no benefit whatsoever to the High Peak community. NIMBY from Altrincham?

No justification for this development.
