Subject: proposed battery storage installation at Gowhole.

Re- Application No. HPK/2023/XXXX Battery storage installation at Gowhole

We would like to register our objection to the above planning application.

We are concerned that this development is to be built on Greenbelt.

If this application was to be successful it could open the floodgates for many other developments, no areas of greenbelt would be safe from future development.

This is also the problem of a fire occurring which could result in thermal runaway as has occurred in Liverpool recently.

Have the Derbyshire fire authority be informed of this development and what is their response.

There is a risk to local residents which we are, regarding the fire risk.

There is also the danger of contamination to the River Goyt due to fire fighting techniques employed.

Have the Environment Agency be consulted regarding this possible contamination.

Getting the industrial sized containers to site will be problematic due to the weight restriction on the bridge over the river Goyt at the bottom of Station road, also the restriction at the junction of Marsh lane and Church road.

The disruption to traffic will be horrendous.

Therefore I would like to reiterate our objection to the above planning proposal.

Yours Faithfully

Christine & Colin Ingham
Gowhole Cottage
Ladypit road
Gowhole.
