Hello Rachael

Firstly I'd like to apologise for the inconvenience of this. I wish to retract the previous no comment response made by the Environment Agency on 15/06/2023 regarding this application. After assessing the site again we determined there are a few groundwater and contamination constraints that fall within our remit. We are consulting with our internal Groundwater team to formulate an adequate response. As much as the 21 day count is still in effect, I will try to get a response to you before the deadline lapses. I understand this might not be possible but I was wondering if you could also grant us a slight extension as our Groundwater team is currently experiencing a high workload. If possible, anything between 1-2 weeks would be immensely helpful.

Again I do apologise for the inconvenience

Regards

Munashe Mavunga
