Comments: Application no. HPK/2023/0193

I wish to object to this application for the following reasons. This proposal relates to greenbelt land. I cannot understand how building an industrial scale battery energy storage installation on it amounts to 'special circumstances'. I believe the site is intended to support supply in the Altrincham area so of no benefit to local residents and not a justifiable reason to locate on greenbelt land.

I strongly believe our existing wildlife and countryside is so important that it should be protected wherever possible. There is no justification for this proposal at this location.

I am concerned about the fire risk and hazardous nature of battery storage systems on this scale to local residents, emergency responders, wildlife and railway. The construction works will also cause severe disruption on Marsh Lane and surrounding roads, particularly Station Road at the railway crossing.

I believe the proposal is against Local Plan landscape policies.

K.Montgomery
