Submission: Objection

Comments: The empty halls of residence in Buxton should be used to provide stable affordable housing for people local to the area. We already have too many big estates being build with unaffordable housing in the town.The town does not have the infra-stucture to support the existing population eg NHS dentists, doctors, school places etc let alone the ability to support asylum seekers with (no doubt) many problems.We will not attract the tourists to the town with this development.
