Submission: Objection

Comments: The infra structure in Buxton is presently not sufficient to accommodate. Careful and detailed strategies would need to be thoroughly developed for extra housing/ accommodation, education, language translation needs, NHS services including dental care, maternity care, untreated communicable diseases, poorly controlled chronic conditions, mental health and specialist support needs, PTSD, FGM, parasitic infections, also vocational training and staffing. Including an infrastructure for the staffing for all of the above. Surely more affordable housing for the local community is more of a priority. Perhaps the university see the option as a lucrative way to make up for their poor recruitment, desirable training and courses and a way to fill up their empty spaces in their buildings. The needs of local groups need to be respected and valued as a priority.
