Submission: Objection
Comments: Dear Sir/Madam

I would like to object to the above proposal for the following reason.

As this appears to basically be a Change of Use application, it gives no indication at all about what the future use of the premises will be. This is completely different to what is normally expected in such an application.

If, as has been reported, it is to be used for asylum seekers then information should be given regarding the numbers proposed, the family composition of these numbers and the details on security and impact on local services ie medical and educational. With this information the public would be fully informed.

I presume High Peak Borough Council have been given an indication by the Home Office on what numbers they are expected to accommodate. The Council itself should be honest about those numbers and also the manner in which it is decided to distribute them evenly across the Borough. I hope these questions will be answered at either the Planning meeting or any subsequent meeting.

Yours faithfully

S Wherry
