Submission: Objection

Comments: Submitted on behalf of one of your residents. Being a resident in Derbyshire and having a Son living in Buxton who has mental health issues which leave him vulnerable to exploitation, I strongly object to the plan to convert the halls to an asylum dispersal centre as it is being done without any investment in the infrastructure of the town meaning already deficient services are stretched for migrants. Currently there are no Dentists for residents and no rental properties available for the residents currently living in the area. Buxton has very stretched police numbers expected to cover all the north of Derbyshire meaning when there is an increase in incidents there will be no police response. Can the council guarantee there will be no assaults on women as we know that there are incidents with migrants attacking women. This council needs to look after it's residents first with good infrastructure such as a hospital, an increase in dental services, GPs, police & housing to provision for our current towns people before we ever consider trying to use those same deficient services for other none local people. Having a Son who is due to become homeless on 25th of this month and can't find another rental I would ask why the halls can't be converted into flats for local people at reasonable rents to level up in our own town using our own resources to help our own vulnerable people.
