Submission: Objection

Comments: The proposal will effect visitors and tourism to the area & will adversely affect the current level of local employment with the development itself being situated in a prominent position on the main thoroughfare to Buxton Town Centre.

The site is not a secure one and asylum seekers are free to come and go. Given the number of residents at the site and their turnover there is a risk that some crime may take place.

A major concern is that the proposal is in an inappropriate location in which to site a hostel for asylum seekers and that there isn't the local infrastructure or local amenities to support the influx of 288 people.
