Submission: Objection

Comments: This is a wholly unsuitable and inappropriate application for green belt land. The infrastructure is inadequate (access and servicing). A lithium battery farm is hazardous and potentially polluting. It will despoil a natural area upset established wildlife. I urge the planning authority to reject this application. In other cases Pathfinder applications have lead to future 'brown field' choice cuts residential developments. In any case this is undesirable and universally unpopular locally and there are many better places for such a development should it be necessary at all
